

Testimonials

The outstanding doctoral training and the vibrant research environment of the Department of Economics and Management prepared me for a successful career in academia. The brilliant and highly committed faculty was truly a source of inspiration

Giovanna Michelon,
*Associate Professor of Accounting,
University of Exeter Business School, Exeter, UK*

My time in Padova was challenging and life changing. The doctoral program is designed to provide students with opportunities to learn to develop their own research ideas and to think broadly, critically and across disciplines. Students learn these skills through rigorous coursework and workshops taught by visiting speakers, as well as mentoring relationships.

Luminita Enache
*Research Scholar in Management
Tuck School of Business, Dartmouth College, US*

Applying for a PhD in Economics and Management was the best decision of my life. A PhD gave me the chance to receive an advanced education, travel around the world, meet unique persons and have the life that I always dreamt about.

Marco Piovesan
*Associate Professor in Behavioral and Experimental Economics
University of Copenhagen*

The PhD program in Economics and Management has been an extremely rewarding experience. Though partnerships with top Universities in US, it allowed me to gain exposure to an international challenging environment. Highly recommended not only for academics but also for other professional careers like in my case

Francesco Strobbe
*Senior Financial Economist
The World Bank Group, Washington DC*

PhD program Economics and Management

*An outstanding international
experience of
learning and networking*
