Farm animal health: alternative medicine	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr
Animal housing: climate - ambiance conditions in livestock buildings	Animal Science	ISA	4 to 8 hours	January-February	Master	English	florence.malaise@yncrea.fr

Animal housing: pig and/or poultry housing systems and building design	Animal Science	ISA	8 hours	January-February	Master	English	florence.malaise@yncrea.fr
Animal production systems: ovine (sheep) and goat production systems	Animal Science	ISA	8 hours	April-May	Master	English	florence.malaise@yncrea.fr
Animal production systems: bovine (meat) production systems	Animal Science	ISA	8 hours	April-May	Master	English	florence.malaise@yncrea.fr
Animal nutrition: feed evaluation systems, roughage production (systems)	Animal Science	ISA	8 hours	October-November	Master	English	florence.malaise@yncrea.fr
Farm animal health: Infectious diseases in pig and poultry	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr
Farm animal health: Infectious diseases in ruminants	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr
Farm animal health: Mastitis (description, risk factors, costs, on-farm management...)	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr
Farm animal health: Reproduction diseases in cattle	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr
Farm animal health: Metabolic diseases in cattle	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr
Farm animal health: Locomotion pathologies in cattle	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr
Farm animal health: Management of parasites in ruminants/herbivores	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr
Farm animal health: Veterinary drugs (description and on-farm use)	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr
Integrated health management of farm animals	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr
Management of parasitic diseases in farm animals	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr
Farm animal health: Tools to evaluate the cost of health on farm (global approach) veterinary costs, production loss...	Animal Science	ISA	4 hours	February - March	Master	French/English	florence.malaise@yncrea.fr

Biocontrol for sustainable crop protection: alternatives to chemical pesticides (all crops) - Biological control : macroorganisms microorganisms	Agriculture and Agronomy	ISA	8 hours	January-February	Master	English	florence.malaise@yncrea.fr
Applied agricultural sciences to specialized crop : Technical practices (in organic or not) about vineyard, apple orchards, tomato/cucumber (greenhouse), vegetables, aromatic plants; with a focus on the use of new connected technologies	Agriculture and Agronomy	ISA	8 hours	April-May	Master	French/English	florence.malaise@yncrea.fr
International marketing	Marketing and Management	ISA	12 to 16 hours	November - December	Master	English	florence.malaise@yncrea.fr
Export	Marketing and Management	ISA	12 to 16 hours	October	Master	English	florence.malaise@yncrea.fr
Communication and crisis management	Marketing and Management	ISA	12 to 16 hours	January-February	Master	English	florence.malaise@yncrea.fr
Digital communication	Marketing and Management	ISA	12 to 16 hours	February - March	Master	English	florence.malaise@yncrea.fr
Industrial marketing	Marketing and Management	ISA	12 to 16 hours	February - March	Master	English	florence.malaise@yncrea.fr
Advanced finance and Financial analysis	Marketing and Management	ISA	12 to 16 hours	April - May	Master	English	florence.malaise@yncrea.fr
Consumer behaviour	Marketing and Management	ISA	12 to 16 hours	April - May	Master	English	florence.malaise@yncrea.fr
Brand strategy	Marketing and Management	ISA	4 to 8 hours	September-December	Master	English	florence.malaise@yncrea.fr
Communication policy	Marketing and Management	ISA	8 hours to 16h	September-December	Master	English	florence.malaise@yncrea.fr
Business intelligence	Marketing and Management	ISA	4 to 8 hours	September-December	Master	English	florence.malaise@yncrea.fr
Food defense (related to IFS, BRC,...)	Food Science	ISA	8 hours	Sept-January	Master	English	florence.malaise@yncrea.fr
Traceability tools	Food Science	ISA	8 hours	Sept-January	Master	English	florence.malaise@yncrea.fr
Food fraud	Food Science	ISA	8 hours	Sept-January	Master	English	florence.malaise@yncrea.fr
Cleaning and disinfection: applications in food processing	Food Science	ISA	8 hours	October-January	Master	English	florence.malaise@yncrea.fr
Food product formulation	Food Science	ISA	10 to 15 hours	November-February	Master	English	florence.malaise@yncrea.fr

Export market requirements and cultural adaptation of food products	Food Science	ISA	10 to 15 hours	November-February	Master	English	florence.malaise@yncrea.fr
Ecodesign tools and strategies	Food Science	ISA	10 to 15 hours	November-February	Master	English	florence.malaise@yncrea.fr
ISO26000 and GRI	Food Science	ISA	10 to 15 hours	November-February	Master	English	florence.malaise@yncrea.fr
Product development for food security	Food Science	ISA	10 to 15 hours	November-February	Master	English	florence.malaise@yncrea.fr
Cost-Benefit Analysis - SROI	Food Science	ISA	10 to 15 hours	November-February	Master	English	florence.malaise@yncrea.fr
Nutrition - functional foods	Food Science	ISA	4 to 8 hours	February-March	Master	English	florence.malaise@yncrea.fr
Six Sigma - Process Capability and Process Performance - Statistical Process Control	Food Science	ISA	15 to 20 hours	December - May (to be discussed)	Master	French / English	florence.malaise@yncrea.fr
Biotechnologies	Food Science	ISA	15 to 20 hours	December - May (to be discussed)	Master	French / English	florence.malaise@yncrea.fr
Packaging - package/product interactions - sustainability trends in packaging	Food Science	ISA	15 to 20 hours	December - May (to be discussed)	Master	French / English	florence.malaise@yncrea.fr
Industrial water management, waste water treatment, water re-use...	Environmental Science	ISA	15 to 20 hours	Between April - May	Master	English	florence.malaise@yncrea.fr
Industrial waste water management	Environmental Science	ISA	15 to 20 hours	Between April - May	Master	English	florence.malaise@yncrea.fr
Toxic and ecotoxic properties of pollutants	Environmental Science	ISA	15 to 20 hours	October	Master	English	florence.malaise@yncrea.fr
Alternative use of polluted sites / sustainable management of polluted areas	Environmental Science	ISA	20 to 30 hours	Between Sept-Dec	Master	English	florence.malaise@yncrea.fr
Ecological restoration	Environmental Science	ISA	10 to 15 hours	Between Sept-Dec	Master	English	florence.malaise@yncrea.fr
Applied techniques of pollution remediation : Physical and chemical remediation techniques	Environmental Science	ISA	20 to 40 hours	Between Sept-Dec	Master	English	florence.malaise@yncrea.fr
Crisis management : Know how to react in an environmental crisis situation (industrial accident...)	Environmental Science	ISA	10 to 15 hours	Between Sept-Dec	Master	English	florence.malaise@yncrea.fr
Waste management (household and industrial waste management, treatment technics)	Environmental Science	ISA	20 hours	November - December	Master	English	florence.malaise@yncrea.fr
