Margot SONG Profile

EDUCATION	EXPERIENCE		
Peking University, Beijing, China	EnviroVest Services(China)	Founder & CEO	20014-Current
EMBA and Distinguished Lecturer	Veolia EnviroVest Services(Nanjing)	Chairman, Board of Directors	2014-Current
Fudan University, Shanghai, China	eJnnn Phecda Partners	Founding & Managing Partner	2002-Current
Bachelor of Science in Finance	Meida Nylon Chemical(SZ0007682)	Executive Director	2002-2009
	Bank of China(GuangDong)	Senior VP and Credit Manager	1991-2001

As a female entrepreneur with vision, global perspective and more than 20 years of cross boarder transaction and business development experiences, Ms. Song is well versed in investment and operation management in the industrial sector.

- In 2002, after spending 10 years at Bank of China and having risen through the corporate ladder to senior leadership position, Ms Song founded eJP, the private investment firm handful. The rare combination of entrepreneurship, investment talent, risk management rigor and interpersonal skills in Ms Song propelled eJP into the success of 3 funds that followed. Ms. Song orchestrated the successful acquisition of Meida Nylon Chemical Co., the largest manufacturer of nylon chips and served in the role of executive director for over 6 years and grew the company into a leading player of high-end polyamide chips in Asia working with top-class chemical conglomerates such as BASF(Germany), DSM(Holland).
- In 2007, Ms Song was selected Distinguished Guest Lecturer to Guanghua Management Business School of Peking University.
- In 2010, Ms Song formed a strategic partnership with One Equity Partners, JP Morgan Chase's wholly-owned private equity arm, and started to layout the strategic footprint for EnviroVest.

Over the years, Margot SONG's investments have demonstrated a record of strong returns achieved through industrial logistics and expertise. It has invested across environmental services, chemistry, pharmaceutical, semiconductor, advanced manufacture, etc.

Case study in Environmental services sector:

EnviroVest, a company invested by Ms Margot SONG with the joint-venture partner VEOLIA, built the largest hazardous waste treatment facilities in China helping largest chemical companies such as BASF solve the waste in China.

Since 2014, EnviroVest has since successfully grown the project into the largest hazardous industrial waste treatment facility in East China, with a designed capacity of over 100k tons p.a. The project company has also developed new revenue growth drivers through current customer penetration and new customer acquisitions.

EnviroVest's capital infusion, financial, human resource and operational management expertise, coupled with the venture partner's industrial and toxic waste treatment management systems, are producing a significant synergistic results as anticipated.

The company is highly recognized by the government and global companies such as BASF, DSM, Volkswagen, Siemens, etc.

SIEMENS

SERVIZIO | AREE PROMETTENTI
Guangdong: primo in Cina ma non ancora per il Made in Italy
La provincia cinese più popolosa ed economicamente più rilevante non è ancora al primo posto nell'attenzione delle imprese italiane, in quanto soffre il ruolo storico di hub commerciale della vicina Hong Kong e la più immediata attrattività di Shanghai. Ma qualcosa si sta muovendo, mentre crescono le potenzialità di commercio, investimenti e collaborazioni nell'area trainante delle trasformazioni in corso nell'intera economia cinese
di Stefano Carrer

Un'Anima industriale
E' di poche settimane fa la firma, al Consolato Italiano di Guangzhou, di un Memorandum of Understanding fra l'associazione Anima (Confindustria Meccanica e Ingegneria) e la società cinese EnviroVest, per lo sviluppo di collaborazioni e investimenti nel settore ambientale.

In February 2020, ANIMA awarded Green Ambassador of Business and Friendship of Italy to China to Ms. Song. This is the first time such a Special Award was bestowed upon an individual by ANIMA.

Dec 4, 2019 Reported by IL 24 ORE SOLE

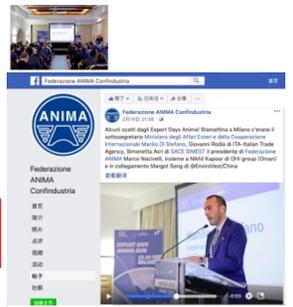

Due giorni di aggiornamenti e incontri Export per la crescita del business della filiera Meccanica, organizzati da ANIMA Confindustria e ICE Agenzia.

Nella prima giornata del 13 febbraio si è tenuto un Workshop specialistico di alta formazione per lo sviluppo business delle aziende dal titolo "Export manager digitale: panoramica sull'uso del social network nel B2B" in collaborazione con Ing Internet nell'ambito dell'Iniziativa Digital Export Academy di ANIMA.

Grande successo di partecipazione per la seconda giornata (14 febbraio) degli Export Days, aperta dal presidente di Anima Confindustria Marco Nocielli: «Le esportazioni della meccanica italiana sono cresciute anche nel 2019 (+1,1%), seguite con qualche rallentamento. Come abbiamo ribadito nel Manifesto Anima consegnato al governo, evidenziamo la necessità nei prossimi anni di sgravi fiscali per l'assunzione di risorse dedicate alle attività per l'export, con la creazione di una figura di Made in Italy Export manager presente all'estero per almeno due anni. Riteneremo inoltre importante una declassificazione per le attività di sviluppo del know how, che consenta alle aziende di essere ben preparate prima di sviluppare il proprio business oltre frontiera, in aggiunta a voucher di categoria per la valorizzazione del sistema Italia all'estero».

A seguire gli interventi di Simona Acci (Chief Sales Officer SACI), Nishu Kapoor (Sales Manager OHI-Overseas projects & Equipment Co. LLC, Omari), Giovanni Rodia (Direttore Ufficio Comunicazione & Relazioni esterne ICE-Agenzia) e Ms. Margot Song (Chairman & President EnviroVest/China), intervenuta con un contributo video per ribadire l'importanza del mercato cinese per l'Italia e lo sviluppo dei settori legati al water treatment e all'environment.
